Salt Lake City, Utah 84116

RE: Rowley Magnesium Facility
ACT/045/008
Tooele County, Utah

Dear Mr. Taggart:

The Division has recently had a request to terminate the reclamation bond posted by N. L. Industries for the Rowley Magnesium Facility on April 16, 1979. This bond cannot be released until AMAX Specialty Metals Corporation responds to Division requests of April 30 and June 17, 1981 for proper notification of transfer of interests and responsibilities from N. L. Industries to AMAX pursuant to Section 40-8-19 of the Utah Mined Land Reclamation Act.

In addition to AMAX making a written commitment to assume all of the duties of N. L. Industries under their approved notice of intention and mining and reclamation plan, posting of a reclamation surety bond in the amount of \$15,278.08 must be made to the Division.

Your response to this matter is sincerely appreciated in order that we may officially update our files and release N. L. Industries from further obligations. If you have any questions, please don't hesitate to call me.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF MINED
LAND DEVELOPMENT
